

# Instructions for Ordering Copies of Stop Federal Tyranny Now! CDs

The Stop Federal Tyranny Now! Project ("STOPFED") CD packets can now be ordered in any quantity (beyond the minimum of 25) through VINPOWER DIGITAL INC., known online as "Do A Disc", Inc. **These CDs are designed to be given ONLY to state legislators.**

A duplication job has been established with the necessary parameters, so all you need do is contact Marcel Johnson as shown below and ask for a rerun of **DO A DISC JOB # S110315001**. This will tell the company to run the same job, complete with labels printed on the discs and sleeves (see next page for a facsimile of the labels). Marcel or another employee will contact you with a quotation based on the quantity and your ZIP code (for the shipping cost) and arrange for payment (you cannot pay through the website).

Again, the MINIMUM order is 25 CDs. You may order as many CDs beyond that minimum as desired. Please bear in mind that the STOPFED CD packet consists of two (2) CDs – one audio and one data CD. If you order 25 CDs, you will get 12 of the audio and 13 of the data (or vice versa). So if you intend to distribute 25 packets, you need to request **50** CDs. If you want to distribute 230 packets, you need to request 460 CDs. The good news is that the cost per CD goes down for the more you order: as low as 28¢ each for 1,000.

To order, contact:

\*\*I recommend calling Marcel rather than emailing him as emails can get backed up.

You are free to visit the website at [www.doadisc.com](http://www.doadisc.com), but this is **not** necessary if you want to order only STOPFED CDs.
